TONIGHT—VIOLET HEMING IN "THE RUNNING FIGHT"

#### COURT HOUSE NEWS

Sheriff William Eech went to Tacoma last night to return with a prisoner captured in that city by the police and held on a warrant from Stayton charging that the man wanted obtained money in Stayton under false pretenses. Sheriff Eech was notified late yesterday that the man was held by the Tacoma police, and the city marshal of Stayton asked him to bring the man back to this county for trial.

Emma Patten brought suit for divorce today in the circuit court of this county against Henry Patten on the grounds of cruel and inhuman treatment. She alleges in her complaint that while she was staying with a friend in order that she might be near town to have some dental work done her husband wrote to her that he was not going to spend any more money on her and told her to stay away from him. The couple were married in Silverton in 1905 and there are no children or property rights involved in the suit. She asks that her maiden name of Emma Wallace be restored to her. F. A. Boyington is attorney for the plaintiff.

Alleging that some city lots in Cloverdale, Cal., were found to be seven miles from town, C. G. Burton and Conie C. Burton today filed a suit in the circuit court against Thad M. Likens to compel him to return the money equivalent to the value of a farm traded for the lots. The complaint states that the plaintiffs were the owners of 40 acres of land eight miles southeast of Silverton and that they traded this land to the defendant for lots 43, 44, 45 and 46 in block 7, Cloverdale Terrace, Sonoma county, California. They further allege that the defendant represented the lots to be well worth \$650, but that upon looking them up they found them to be seven miles from Cloverdale proper, and rough land, absolutely worthless. They ask judgment in the sum of \$650. W. C. Winslow is attorney for the plaintiff.

O. C. Cardwell has brought suit in the circuit court of this county against the Salem Suburban Railway company to quiet title to a lot in Morningside addition to this city. The plaintiff alleges that he is the owner of lot 3, block 8, Morningside addition to Salem, and that the defendant claims an interest in the lot. He asks that his fee simple title be perfected and that the defendant and its officers be permanently enjoined from trespassing on the premises. W. C. Winslow represents the interests of the plaintiff.

#### BURNED SCHOOL HOUSE

Peoria, Ariz., Sept. 4.—David Theford and Eddie Arnold, 10 years old, living in Keisher school district near Phoenix, viewed with alarm the approach of school days. No school house, no school, they argued. So they burned the school house. A deputy sheriff found the boys in their favorite swimming hole. When they saw the officer they dived, and the sheriff says they established a new underwater record. The lads confessed, saying it was too fine weather to go to school.

#### Organized Labor Will Rally Monday

The organized laborers of Salem have made great preparations for a Labor day celebration this year that is hoped will bring all those together who are interested in the movement. Instead of picnics and parades, as in former years, a series of two lectures will be given, explaining the movement in a way that has never been done before. C. O. Young, general organizer of the American Federation of Labor, with headquarters at Portland, has consented to give two lectures on labor subjects. Sunday evening he will address the citizens of Salem at a public meeting to be held at the First Methodist church. He will again talk Monday evening at Labor hall, 457 Court street. Both of these lectures are open to the public and everybody is invited to attend. They are free, and in addition to the lecture a musical program has been arranged. K. A. Harris, former state printer, will introduce the speaker at the Sunday evening services, and George W. Kramer, president of the Salem Trades and Labor Council, will introduce him at the meeting to be held in the Labor hall Monday evening.

#### Sterling Ends Week In Much Uncertainty

(Copyright, 1915, by the New York Evening Post.)  
New York, Sept. 4.—Sterling ended the week, as might have been expected, in a state of uncertain expectancy and suspended animation. There were practically no transactions; indeed, the two-day holiday, with London Street open Monday, and with so many possibilities in the air, would have been sufficient to discourage any attempt at business. In the stock exchange, though trading was light, an atmosphere of returning cheerfulness which followed the mid-week recovery of sterling, was distinctly perceptible. A favorable fact was the predominance of standard railway shares. Practically all of these advanced, reflecting a slackening of London sales since the exchange turned upward and the disappearance of extravagant apprehensions in which the street indulged when sterling was at the low.

#### Beer Bottles Do Not Contain Full Quart

One of the unforeseen elements of a "dry" state has been brought to the notice of F. G. Bushel, deputy state sealer of weights and measures, in the form of complaints about liquids being sold by the stores in empty beer bottles to customers who call for a quart of the commodity. Everyone familiar with beer bottles, full and empty, know that it requires the contents of five of them to measure out a full gallon, and one beer bottle will hold one-fifth of a gallon.

#### Fifty-Four Submarines Victims of Allied Navy

Paris, Sept. 4.—With regard to the statement that the chief reason the Germans are preparing to abandon submarine warfare is because of their heavy losses, it is authoritatively asserted that 54 of the U-boats have been lost. A naval banquet was held in England recently to celebrate the destruction of the 50th submarine.

eketa street, one that will be a help to motorists on slippery roads as well as in long stretches of sand. Mr. Reinhard is so sure that his invention will fill a long felt want, that he has applied for a patent to protect his rights. It is an attachment made of small wooden blocks seven inches long, linked together by chains, and so made that it can easily be fitted on a tire without jacking up the machine, and taken off just as easily. It has been tried out at the gravel pit at the north end of Commercial street, this place being selected on account of the sand, and proved quite satisfactory. The attachment for the tires are so made that they can be fitted on any sized wheel, and when not in use, can be rolled into a small package.

E. B. Lockhart of this city, who is attending the sessions of the Columbia river conference of the M. E. church at Spokane, in a letter to Salem and states that the addresses of Dr. Carl G. Doney, president of Willamette university and those of Dr. H. J. Talbot, dean of Kimball college of theology, proved masterpieces and made a fine impression, both Salem speakers being at their best. Their visit was highly appreciated by the members of the conference. Mr. Lockhart states he has been given a royal reception in his old conference by the members with whom he had not met in annual session for over seven years, and that he is meet-

#### Fourteen Leading Drivers In 500 Mile Race

St. Paul, Minn., Sept. 4.—Fourteen of the leading drivers of the country were sent away at noon today in the first 500 mile race to be run on the Twin City speedway. Upwards of 25,000 persons were packed in the stands and about the course when the first car plunged forward at the signal of Start or Wagner.

Included among the drivers are Dario Resta, the most consistent winner of the year; Ralph De Palma, Barney Oldfield, Gil Anderson, Earl Cooper and other pilots who have competed in practically every big race this season. Purses offered for the race aggregate \$50,000. The winner will receive \$20,000.

At 230 miles Anderson was still leading with Cooper second and O'Donnell, in a Duesenberg third. Anderson had averaged 87.82 miles an hour up to the 200 mile mark. This was fourteen minutes slower than the time made in the Chicago race. De Palma went out after the 200 mile mark wash passed owing to an over oiled magnet. Resta went out soon afterward with a broken oil pump. Henning also went out, no cause being announced. Mulford in a Duesenberg was ordered to quit owing to a broken frame.

Burman driving a Peugeot, went out with a broken piston.

The two Stutz cars were still in front at 290 miles with Anderson leading his team mate, Cooper.

#### Harry Thaw Arrived In Sacramento Last Night

Sacramento, Cal., Sept. 4.—Harry K. Thaw arrived in Sacramento shortly after midnight. He arose at 10:15 a. m. and immediately took breakfast. He waved reporters aside until after he had eaten.

His clothing shows the hard wear of the trip. He is very much tanned. Thaw gave out a formal statement that he was going direct from here to San Francisco and that he would meet his mother there in fifteen days.

A United Press reporter asked him regarding the divorce suit filed by him against Evelyn Thaw. "Will you seek the custody of the boy, Russell?" the reporter asked. "What boy Russell?" Thaw flung back. "I know nothing of any boy." Thaw said it was his desire to give out a statement for publication in regard to his action for a divorce from Evelyn Nesbit Thaw, so that there would be no misunderstanding.

He said: "I think if divorces were uncommon it would be better, but as they are legal it is right for me to enter this suit. I have done this with no ill will and have nothing further to say about divorces." When asked if he had anything to say about Mrs. Thaw's statement that she would not oppose his divorce he said: "What statement? I know nothing about a statement from Mrs. Thaw and it is not my business."

When asked if he would seek the custody of his son Russell, he showed genuine resentment. "What boy? I know nothing about a boy."
